Installation und Aktivierung von rechnergebundenen Lizenzen (Node Locked Licenses)

Voraussetzungen:

- PC mit aktiver Internetverbindung
- Vorhandener Aktivierungscode (Entitlement ID)

"Node Locked" Lizenz Installation

Die Hexagon CLM Lizenz Software wird in Verbindung mit der Applikationssoftware (z.B. PC-DMIS, DataPage+,...) installiert. Während dieser Installation wird eine Windows Startgruppe CLM angelegt, aus der die Software gestartet wird:

1. Zur Installation einer rechnergebundenen Lizenz wird die Software "CLMTools Local Admin" gestartet. Es erscheint folgender Dialog:

2. Mit dem Link "**Activate new licenses**" erscheint ein Dialog, in dem der Aktivierungscode eingegeben (besser kopiert) wird:

3. Der Link "**Check for activatable licenses**" zeigt eine Liste der zu aktivierenden Lizenzen an.
