## Installation instructions PC-DMIS Preset & Measure

Dear customer,

you have ordered the PC-DMIS – Preset & Measure software at Hexagon or you want to perform a test installation.

The software may only be installed on a **64-bit computer with Windows 10 or higher** and a **compatible version of PC-DMIS**. For compatibility notes, please refer to the section: [Compatibility of PC-DMIS with PC-DMIS Preset & Measure](#) in this installation guide. No software tests have been performed under other operating systems. If this software is installed under other operating systems, no guarantee can be given for the full functionality of the software.

In addition, the **.NET Framework version 4.7.2** or higher is required on the PC.

The use of the software is subject to acceptance of all provisions contained in the software license agreement. For details, refer to the document "EN\_EULA.pdf", which you will find in the same folder in which the user manual is located.

The software is available to download on the ftp server under the following URL:

[ftp://ftp.hexmet.de/PC-DMIS/PC-DMIS\\_Preset\\_&\\_Measure%20Suite/PC-DMIS\\_Preset\\_&\\_Measure/](ftp://ftp.hexmet.de/PC-DMIS/PC-DMIS_Preset_&_Measure%20Suite/PC-DMIS_Preset_&_Measure/)

Please perform the following steps to install the software on your PC-DMIS computer:

1. Check the PC-DMIS version currently being used.
2. Start the download via left click on the file.
3. Unpack the zip archive on your PC-DMIS computer.
4. Start the setup.exe with administrator rights to install the software. Then follow the instructions in the set-up procedure.
5. After successful installation start PC-DMIS with administrator rights.
6. Start Preset & Measure with administrator rights via the related Windows start group. If there is no license file, a dialogue for a license request will open:

License request

Customer data

Company name  
Sample Ltd

Street  
Sample street 1

Zip code  
12345

Plant name or location  
Sample town

Type of license

License with time limit (demo)

License with time limit (subscription)

License without time limit

Order number  
654321

Please send your license request to the e-mail address: DESoftwareWETZLAR@hexagon.com

HEXAGON

Create file

Exit

7. Fill in the mandatory fields on the left side. Decide between "License with time limit (demo)" (valid for a maximum of 3 months), "License with time limit (subscription)" (purchased license with a time-limited validity) and "License without time limit" (purchased license without a limited validity) by selecting the corresponding radio button on the right side.
8. If "License with time limit (subscription)" or "License without time limit" is selected, the "Order number" field appears. Enter the order number. This can be found in the Hexagon order confirmation. Alternatively, the number of the customer order can be entered.
9. You can then save the license request with the <Create file> button.
10. Please send the license request to [DESsoftwareWETZLAR@hexagon.com](mailto:DESsoftwareWETZLAR@hexagon.com).
11. You will receive an e-mail with the license file within 24 hours (on working days).
12. Copy it into the installation directory of PC-DMIS Preset & Measure.
13. Start PC-DMIS and Preset & Measure once with administrator rights.
14. You can then use the software with user rights. Both PC-DMIS and Preset & Measure must be started with identical permissions.

## Required access rights

PC-DMIS and PC-DMIS Preset & Measure requires full access to the areas described below in the file system and registry:

### PC-DMIS Preset & Measure:

#### Registry:

- "HKEY\_CLASSES\_ROOT\PCDLRN.Application\" and all subkeys
- "HKEY\_CURRENT\_USER\Software\VB and VBA Program Settings\" and all subkeys

#### File system:

- Installation directory and subfolder
- User-defined folders in which measuring routines are stored and executed
- Folders defined in PC-DMIS Preset & Measure under "Extras -> Settings"
- "C:\PCDMIS\_Preset\_Measure\_Files\" and subfolder
- **Until version 3.2015.0.12:** "C:\ProgramData\PCDMIS\_Preset & Measure\" and subfolders
- **From version 3.2015.0.13:** "C:\User\Public\Documents\Hexagon\PCDMIS\_Preset & Measure\" and subfolders

## PC-DMIS:

### Registry:

- “HKEY\_CLASSES\_ROOT\PCDLRN.Application” and all subkeys
- “HKEY\_CURRENT\_USER\Software\Hexagon\PC-DMIS” and all subkeys

#### Optional:

- “HKEY\_LOCAL\_MACHINE\SOFTWAREWow6432Node\Hexagon\PC-DMIS” and all subkeys
- “HKEY\_USERS\DEFAULT\Software\Hexagon\PC-DMIS” and all subkeys

### File system:

- “C:\ProgramData\Hexagon\PC-DMIS” and subfolder
- “C:\Users\Public\Documents\Hexagon\PC-DMIS” and subfolder
- „C:\Users\{user name}\AppData\Local\Hexagon\PC-DMIS\{PC-DMIS version}“ and subfolder
- User-defined folders, in which measuring routines, probes, subroutines etc. are stored

## Compatibility of PC-DMIS with PC-DMIS Preset & Measure

The version number of PC-DMIS Preset & Measure informs about the compatibility to PC-DMIS:

- **X.YYYY.y.Z:**  
**X, Z:** Version number of Preset & Measure  
**Y:** Version number PC-DMIS  
**y:** Release of PC DMIS

- **1.2014.2.3:**  
version number of Preset & Measure: **1.3**  
version number of PC-DMIS: **2014 R2**

➤ This version is compatible with PC-DMIS 2014 R2 and higher.

Should you have any technical questions please contact your local PC-DMIS Hotline.

## Use of the software as a "License with time limit (subscription)"

The software can usually be used for a period of 12 months. A corresponding notice is given in good time before expiry. An extension of the software use must be requested by the customer from the respective contact person at Hexagon. Hexagon will send a corresponding offer, which must be ordered in writing by the customer. Longer usage intervals can be agreed separately at any time.

## Other notes on PC-DMIS Preset & Measure

Please note that the license request is really generated on the computer intended for the software.

## About Hexagon

Hexagon is a global leader in sensor, software and autonomous solutions. We are putting data to work to boost efficiency, productivity, and quality across industrial, manufacturing, infrastructure, safety, and mobility applications.

Our technologies are shaping urban and production ecosystems to become increasingly connected and autonomous – ensuring a scalable, sustainable future.

Hexagon's Manufacturing Intelligence division provides solutions that utilise data from design and engineering, production and metrology to make manufacturing smarter. For more information, visit [hexagonmi.com](https://hexagonmi.com).
